

We are your local farmers...

Nyob Zoo (nawg shong), Hello!

We are Nancy and Robert Lee, and we are your local farmers. We live north of the Twin Cities in Albertville and farm in St. Michael and Blaine. We have a long tradition in our family of growing our own food. This year, however, will be our second year of farming and selling the vegetables that we grow.

Last season was the first year we sold our vegetables to local farmers' markets in and around the Twin Cities. We found the experience to be rewarding because we enjoyed interacting with our customers and knowing that we are providing fresh nutritious food to our community. With our passion for growing and selling fresh, high-quality vegetables, we hope to expand into new markets this season.

Here in St. Paul, Minnesota, we are continuing our passion for growing and selling fresh, high-quality vegetables. Currently, during the summer months, you can find us selling our fresh vegetables at the farmers' market on University Avenue and Dale Street and at Hmong Town.

- We hold ourselves to high standards when it comes to farming because farming has been an important part of our lives.
- From the land that we work on, to the vegetables that we will deliver to you, we put our best efforts and promise quality in everything we do.
- When we say "fresh" it means that the vegetables were harvested within the last 24 hours.
- Our vegetables will be priced competitively and fairly.
- This season, during the summer months, you can find us selling our fresh vegetables at the farmers' markets in Rogers and Brooklyn Park.
- Varieties of vegetables we will grow are listed on the back side of this page.
